Professional Profile

Computer Systems Engineer with strong experience in backend and frontend development, QA testing, and technical support. Worked in corporate environments such as Halliburton and government projects, specializing in cloud-based technology solutions and desktop applications. Proficient in Power Apps, Azure, REST API integration, and Power BI reporting. Experienced in PHP, Laravel, React, and agile methodologies including Scrum and Kanban, using tools like JIRA and Trello.

Work Experience

- General Coordination of Administrative Modernization and Government Innovation (Jan 2025 - Present)
 - Developed modern web interfaces using Angular.
 - Integrated REST APIs and conducted QA testing.
 - Backend technologies used: NodeJS, Java, Spring Boot; implemented security with Keycloak.
- IT Intern, Halliburton (4 months) 2024
 - Handled technical incidents using ServiceNow.
 - Developed solutions using Power Apps and created reports with Power BI.
- Freelance Developer
 - Designed custom software solutions using Java, PostgreSQL, Angular, Spring Boot, PHP, Laravel, and React.
 - Focused on scalable applications and REST API integration.
